Stat Info Stroke Export

File Definitions

Stroke Export Overview

The PGA TOUR Shot Detail Export is designed to produce a semi-colon delimited text file suitable for use with most common spreadsheets and databases. The information is presented at the shot level for each tournament and player selected.

Field List

1. Tour code
2. Tour Description
3. Year
4. Tournamentschedule #
5. Player #
6. Tournament Name
7. Permanent Tournament#
8. Course Name
9. Course #
10. First_name
11. Last_name
12. Round
13. Hole
14. Hole score
15. Par value
16. Yardage
17. Shot
18. To Location (scorer)
19. To location(enhanced)
20. Distance
21. Distance to Pin
22. In the Hole Flag
23. Around the Green Flag
24. 1st putt flag
25. Distance to hole after the shot
26. Time
27. Lie
28. Elevation
29. Slope
30. X Coordinate
31. Y Coordinate
32. Z Coordinate
33. Distance from Center
34. Distance from Edge
35. Date
36. Left/right
37. Strokes gained/baseline
38. Strokes gained category
39. Recovery shot

Detailed Definitions

tour code

(1 character code)

R - PGA TOUR
S - Champions TOUR
H – Korn Ferry TOUR
Y – Americas TOUR

tour description

(text)

"PGA TOUR", "Champions TOUR", "Korn Ferry Tour", “Americas TOUR”

year

(4 digit numeric)

Four-digit year of the event

tournamentschedule #

(3 digit numeric)

The tournament 3-digit sequence number of the particular event. Events are sequenced in the order of the tournament schedule for a given year. Sequence numbers are normally in increments of 10.

This datapoint was called “Tourn.#” in WINQDL

player #

(5 digit numeric)
A unique 4- or 5-digit number assigned to each player

Tournament Name

(text)

The full name of the Tournament Played

This datapoint was in column k in WINQDL

permanent tournament#
(3 digit numeric)

The unique 3 digit number assigned to each tournament. This number remains consistent with a tournament from year to year, whereas the tournament schedule number will vary based on the sequence of tournaments played.

This datapoint was called "Permanent Tournament #" in WINQDL

Course Name

(text)

The full name of the Course on which the shot was played

This datapoint was in column L in WINQDL

Course #

(3 digit numeric)

A unique 3-digit number assigned to each course (Note: courses played in more than one event will receive a number for each event. i.e. Pebble Beach Golf Links has been played for both the AT&T Pebble beach Pro Am and the US Open in the same year and has two unique course numbers assigned.)

This datapoint was in column F in WINQDL

first_name

(text)

The player's full first name
This datapoint was called “Player First Name” and was in column H in WINQDL

last_name
(text)

The player's full last name
This datapoint was called “Player First Name” and was in column I in WINQDL

Round
(1 digit numeric)

The Round number 1 - 6. Most PGA TOUR and Korn Ferry Tour events are 4 round events. Most Champions Tour events are 3 rounds.

This datapoint was in was in column J in WINQDL

Hole
(1 digit numeric)

Hole number, 1 - 18, on which the shot occurred

Hole Score
(1 digit numeric)

Number of strokes assessed for the player on the hole, including penalties

Par Value

(1 digit numeric)

The Par Value for the hole being played

Yardage
(3 digit numeric)

The scorecard yardage for the hole being played

Shot
(1 digit numeric)

The sequential, chronological number of events in how a player negotiated a hole. The events that are assigned a sequence number are actual strokes with a club, drops and penalty strokes.

shot type(s/p/d)

(1 character code)

description	code
Tee Shot - first shot on Par 4 and Par 5 holes	T
Going for It with Success - went for the green and hit it	G
Going for It Attempt - went for the green and missed it	W
Approach Shot - (Par - 2) shot landing on or around the green	A
Scrambling ARG - missed the green and shot is from around the green	S
Scrambling not ARG - missed the green and shot not from ARG	N
Putts - shot started on the green	P
Other ARG - other shot from around the green	O
Used Provisional - a provisional shot that was used	U
Layed up - did not go for the green when possible	L
All Others - shots not assigned any other shot type	Z
Going for the Green Water - GFG on par5 with water	C
Going for It Tee Shot with Success went for the green and hit it	Q
Going for It Tee Shot Attempt - went for the green and missed it	R

Penalty Stroke	F
Approach Penalty Stroke	E
Drop	D
Unused Provisional	X

# of strokes

(text)

The number of strokes assessed for this shot

From Location (Scorer)

(text)

General location from which the shot began as recorded by the walking scorer

from location(enhanced)

(text)

Enhanced location from which the shot began as recorded by the Shotlink System which tracks ball position using coordinates on a course map

To Location (Scorer)

(text)

General location from which the shot hit ended as recorded by the walking scorer

to location(enhanced)

(text)

Enhanced location from which the shot hit ended as recorded by the Shotlink System which tracks ball position using coordinates on a course map

Distance
(5 digit numeric)

Distance of the shot in inches as measured by a laser device recording the coordinates of the beginning position before the shot was taken and the ending position when the ball comes to rest, and calculating the distance in inches between them.

Distance to Pin
(5 digit numeric)

Distance in inches from the position of the ball before the shot was taken and the pin, as measured by a laser device recording the coordinates of the ball position before the shot, and the coordinates of the cup on the green, calculating the distance between them.

In the Hole Flag
(character Y/N)

Value indicating whether the shot finished in the hole. Y = yes. N = no.

Around the Green Flag
(character Y/N)

Value indicating whether the shot landed around the green. Y = yes. N = no.

1st putt flag
(character Y/N)

Value indicating whether the shot is the first putt on a hole. Y = yes. N = no.

Distance to the Hole After the Shot
(numeric)

Distance in inches from the position of the ball after it comes to rest at the end of a shot and the pin, as measured by the Shotlink

System recording the coordinates of the ball position when it comes to rest, and the coordinates of the cup on the green, calculating the distance between them.

Time

(timestamp)

Local time that the shot was taken.

The formatting just listed the time in 3-4 digits in WINQDL.

Lie
(text)

Assessment of the lie with which a player had to contend for his shot. Possible values are:

- Good
- Buried
- Unknown
- N/A
- Divot

Elevation
(text)

The elevation of the player with respect to his golf ball. Possible values are:

- Unknown
- Above Ball
- Below Ball
- With

Slope
(text)

The slope of the ground on which the shot is taken. Possible values are:

- Unknown
- Uphill
- Downhill
- Level

X coordinate
(11 digits with 4 decimal places)

The X coordinate in an X/Y/Z grid system used by lasers to pinpoint the ball when the shot ends. The value is zeros for the shot that finishes in the hole. The numbers in the grid system represent feet.

Y coordinate
(11 digits with 4 decimal places)

The Y coordinate in an X/Y/Z grid system used by lasers to pinpoint the ball when the shot ends. The value is zeros for the shot that finishes in the hole. The numbers in the grid system represent feet.

Z coordinate
(11 digits with 4 decimal places)

The Z coordinate in an X/Y/Z grid system used by lasers to pinpoint the ball when the shot ends. The value is zeros for the shot that finishes in the hole. The numbers in the grid system represent feet, and 'Z' is the vertical component of the position

Distance from Center

(numeric)
Distance, in inches, the ball comes to rest from the center of the fairway when the player hits the fairway

Distance from Edge
(numeric)
Distance, in inches, the ball comes to rest from the edge of the fairway when the player misses the fairway

date
(date)
The date that the stroke was taken

left/right
(text)
Indicates if the shot ended left or right of the center point

strokes gained/baseline
(numeric)
Indicates how close plus or minus this stroke is to the baseline for that category.

strokes gained category
(text)
The category that this stroke falls into for the purposes of calculating Strokes Gained.

recovery shot
(Yes/No)
Indicates if this stroke was a Recovery shot.
